Evaluating T cell escape in epitopes previously defined as reactive in clade B consensus mapping - Protocol for Elispot, Peptide handling

Joanna A Warren Nilu Goonetilleke

Updated date: Dec 7, 2020

An abbreviated version of this protocol was published in eLIFE in Oct 2020

The HIV-1 latent reservoir is largely sensitive to circulating T cells

DOI: 10.7554/eLife.57246
